

Model	RY-3000M
Voltage	380V/60HZ
Rated power	30kw
Rated current	50A
Dehumidification Capacity	19kg/h at T=20°C; RH=60%
Process air	
Rated airflow	3000m³/h
External residual pressure	400Pa
Connection inlet Ø	522*286mm
Connection outlet Ø	400mm
Reactivation air	
Rated airflow	1100m³/h
External residual pressure	200Pa
Connection inlet Ø	200mm
Connection outlet Ø	200mm
Other data	
Operating temperature	-10/+50°C
Machine size	1312*856*1300mm
Weight (packaging excluded)	295kg
Filter	G4 (customizable)

CONSTRUCTIONAL FEATURES

1. Sturdy housing in stainless steel
2. High performance at low temperatures and low relative humidity in a room.
3. Sweden Profute Silica gel adsorption wheel ,washable, recycled, environmental protection
4. Automatic/manual mode, automatically ON/ OFF according to the room humidity
5. 1-24 hour timer switch
6. 485 communication interface
